

## New Lamborghini Huracán LP 610-4 supercar

SHKP enlisted Italian supercar brand Lamborghini when it put Phase 1A of Park Vista Development on the market for a car show at the development's plaza with the Huracán LP 610-4 model and a demonstration of the drive from the development to MTR Yuen Long Station. The Italian supercar did it in just about three minutes and 36 seconds!\* With its minimalist design, breathtaking dynamics and excellent quality, the Huracán delivers an unparalleled sports car experience and is suitable for everyday use.

### Supercar shows its stuff

The name, design aesthetics, electronics and performance of Huracán LP 610-4 make it a legend in the motoring world. The supercar was named after a breed of Spanish fighting bulls, but Huracán also means storm and the car is capable of ripping through the skies. The Huracán LP 610-4 model, in which LP stands for longitudinal posterior (sideways-mounted rear-engine V10 with natural air intake), can reach over 325 km/h and accelerate from 0 to 100 km/h in 3.2 seconds. The engine produces a maximum torque of 560 Nm at 6,500 rpm. The 610 refers to the top power output of 610 horsepower while the 4 means four-wheel drive. This lets the car accelerate faster than a rear wheel drive competitor coming out of a turn. The supercars have hardtop and convertible versions. The electronic hydraulic soft top of the convertible edition comes in black, brown and red for a look of opulent elegance. There are 17 body colours to choose from and Ad Personam custom options are available for buyers wanting a personalised interior to create the most satisfying luxury supercar.

### Integrated technology for greater driving satisfaction

The Huracán LP 610-4 has instinctive technology with adaptive network intelligent management (or ANIMA meaning soul in Italian) that allows the driver to choose between STRADA, SPORT or CORSA driving modes that integrate the engine, gearbox, steering, electronic stability control and four-wheel drive to switch the car from daily driving to sports car or even racing mode. Even a non-professional driver can experience its outstanding performance and admire its unique charms.

\*Note:

The test drive on 28th January 2016 from the entrance of Park Vista Development to the drop-off point at YOHO MALL II took only about 3 minutes and 36 seconds. The test drive is for reference only and the actual travelling required may vary depending on factors such as the car, road conditions, traffic, weather, route taken, etc.
